THE PATRIARCHS MILITANT

Canton Washington Prepares to Leave for Indianapolis.

Plans for the Entertainment of the Sovereign Grand Lodge of Odd Fellows-Many Local Members of the Order Will Attend the Gathering.

lows of the world convenes in Indianapo-lis, on September 15, and will remain in session five days. This is the greatest of all bodies of Odd Fellows and its annual sands of members of the order from al parts of America. The citizens of Indi-anapolis have for months been making preparations for the care and entertain ment of the Odd Fellows and it is assured that the social events of this year's convention will equal in brilliancy if not eclipse those at Richmond, when the Sovereign Grand Lodge met in that city last

Washington Odd Fellows will attend the Indianapolis convention. They will go under the escort of Canton Washington, No. 1, Patriarchs Militant, one of the most splendid organizations in the military branch of the order.

Capt. D. V. Chisholm is now drilling the Canton several nights each week, and expects to make a fine showing in the parade and drills at Indianapolis. The Washington Odd Fellows leave on Saturday peake and Ohio Railway. Special sleep

peake and Ohio Railway. Special sleepers on this train have been engaged to
accommodate the party. A fund raised by
a fair given in Odd Fellows Hall last
spring will be used to help defray the expenses of the trip, and a good time is anticipated by all who go.

The committee in charge of the details
of the trip to Indianapolis is composed of
John I. Brown, W. H. Ernest, and E. W.
Bradford. This committee has issued orders to members of the Canton, which
read in part as follows:

"Washington D. C. Sept. 2, 1991. Washington, D. C., Sept. 2, 1901.

"Chevalier:

"Our Canton starts for Indianapolis to attend the meeting of the Sovereign Grand Lodge at 3 o'clock p. m., on Saturday, September 14, via the Chesapeake and Ohio Railway (Sixth Street Station), and will be due to arrive in Indianapolis at 11:40 a. m., on Sunday the 15th. The tickets are good returning to and including September 23, without deposit at Indianapolis. They are good leaving Washington on September 11, 12, 13, 14, and 15, but the Canton will go as a body on the 14th. as above stated.

"We hope to fill two special sleeping cast with the Canton and its friends, one from Washington through to Indianapolis, and one from Clifton Forge to Cincinnat.

lis, and one from Clifton Forge to Cincinati.

"If you have not already done so, please notify the committee at once if you want berth reserved, and whether from Washington or Clifton Forge.

"The Canton is going into Camp Cable at Indianapolis with the rest of the Cantons of the country. Great preparations have been made for the comfort and entertainment of the Patriarchs Militant in this camp. The cost will be but nominal. Tents, wire cots, plenty of straw and water are provided for the camp. Chevallers must provide their own blankets, pillows, soap, and towels. They will be on sale at the camp, or can be taken from home.

"Chevaliers are requested to have all articles for camp use, which they desire shipped, in the custody of J. A. Shackelford, Quartermaster, Odd Fellows Hall, as early as the 12th, and earlier if possible, in order that they may be packed and checked in ample time to get taken care off. This is important.

"Expense of this trip: Some Chevallers are hesitating about going because of the

the trip very comfortably on the above amount.
"Drills: The Canton voted Saturday night to hold a drill on Tuesday, Thursday, and Saturday nights of this week. Captain Chisholm requests every Chevaller to be present and participate in these drills. This is very important, in order that we may do credit to our jurisdiction and our officers in the parade, in the camp, and on the streets of Indianapolis. "If you are going to Indianapolis and have not yet notified the committee, please do so at once. We expect to have a good time, and urge all to go who can."

LONE UNIVERSITY GRADUATE. Special Convocation at Chicago for

Putnam, of Petaluma, Cal., has the dis-tinction of having been graduated alone at a convecation of the University of Chi-

especially for his benefit.

The ceremony was performed in the president's office Saturday afternoon for the conferring of the degree of doctor of philosophy upon Putnam, who missed the last convocation through no fault of his own, owing to a change of date.

MORE BOXES OF GOLD. And Many Greenbacks.

To secure additional information directly from the people, it is proposed to send little boxes of gold and greenbacks to persons who write the most interestdetailed, and truthful descripti

coffee drinking and by changing from Do you know anyone who has been

driven away from Postum because it came to the table weak and characterless at the first trial?

 Did you set such a person right re-garding the easy way to make Postum clear, black, and with a crisp rich taste? on stove until real boiling begins, then notice the clock and allow it to continue easy boiling full 15 minutes from that time, stirring down occasionally? ean, placed in the pot will prevent boll-

 Give names and account of these you know to have been cured or helped in health by the dismissal of coffee and the daily use of Postum Food Coffee in

friends whom you believe would be ben-efited by leaving off coffee. (Your name will not be divulged to them.) Address your leteer to the Postum Cereal Co., Ltd., Battle Creek, Mich.

writing your own name and address bonest and truthful, don't write

poetry or fanciful letters, just plain, truthful statements.

Decision will be made between October 20 and November 10, 1901, by three judges, not members of the Postum Cercai Company, and a near littie box containing a \$10 gold piece sent to each of the five best writers, a \$2 greenback to each of the 100 next best, and a \$1 greenback to each of the 200 next best writers, a \$2 greenback to each of the 200 next best writers, making cash prises distributed to 252 persons.

Almost everyone interested in pure food and drink is willing to have their name and letter appear in the papers, for such help as it may offer to the human race. However, a request to omit name will be respected.

Every friend of Postum is urged to write and each letter will be held in high esteem by the company, as an evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose plain and sensible letters contain the facts dringed, although the sender may have be; smail faith in winning at the time of writing.

Talk this subject over with your friends poetry or fanciful letters, just plain,

reach many modest writers whose plain and sensible letters contain the facts desired, although the sender may have becamal faith in winning at the time of the writing.

Talk this subject over with your friends and see how many among you can win prizes. It is a good, honest competition and in the best kind of a cause.

They were only married in April, 1990. They were

THE PRESS FEEDERS' TROUBLES.

Only One Government Printing Offic Employe Without a Union Card. The contest between the union and n ion press feeders employed at the Gov ament Printing Office, which has bee oing on for more than a year, has ended a victory for the Press Feeders' Union, '(ith the exception of one woman, all are low members of the union. This woman, is expected, will fall into line today. At the recent convention of the Pres

m's and Assistants' Union of North merica, an organization with a member hip of about 25,900, a resolution was pass to the effect that all feeders employed the Government be required to hold ion cards by September 1. This step was considered necessary because of the determined stand taken by the non-union women employed at the Government Printing Office, who resisted the efforts of the organization to force them into the

tion, the pressmen employed by the Gov-ernment met and decided that after Sep ember 1 they would refuse to work with

the non-union feeders.

It looked for a time as if even this drastic measure would fail to accomplish the desired end. A number of women declared that they would never yield, conending that they secured their place un-ler the Civil Service law, and that that law would not permit harm to come to them through the antagonism of a labor rganization to which they did not want

women began to join the union, until only two had not applied for cards. Those two held out until last Saturday night. Sunday was the 1st day of September, the matum by the national organization of pressmen, and Monday was Labor Day that the intention of these two wome ould not be learned until yesterday One of them, who is said to be employed in the Navy Department branch of the Government Printing Office, was on hand comptly yesterday morning. When she

made her appearance the pressman she assists asked her if she had a union card. assists asked her if she had a union card. She said she had not.

She was then informed that unless she made application for membership at once, she could not, or the pressmen would not work. This had the desired effect.

The woman who is still out is employed in the press room of the job department of the Government Printing Office. She did not appear for work yesterday. It is said she has asserted that rather than yield to the union's demand she will give up her situation. p her situation. It is not thought possible that she will

THE PAPERHANGERS' STRIKE. A Number of Firms Yield to the De-

mands of the Union. was no change in the aspect of are holding out for a scale of \$3.20 for eight hours labor instead of the present scale of \$2.80, held a well attended meet-ing at Labor Bureau Hall, 609 C Street northwest at 10 o'clock this morning. At the conclusion of the meeting the executive committee went into session and it was later announced that a number men formerly employed by these firms, it

strikers say, to adopt the piece work system, in employing paperhangers. The strikers are pieased with this turn of affairs, which they consider a considerable advantage. The rate of pay for piecework is high and a workman, it is said, is able to earn much more than while working by the day.

Another meting of the Assembly was called at 3 o'clock this afternoon. It is probable that a conference will soon be held with representatives of the firms which have not yet acceded to the new scale. strikers say, to adopt the piece work sys-

MRS. BABCOCK COMMITTED.

Mental Derangement Causes Her Temporary Confinement.

Mrs. Catherine A. Babcock, of 900 M Street northwest, was today committed to the Government Hospital for the In-sane on a temporary permit awaiting the ction of the Supreme Court of the District in her case. Mrs. Babcock is seventy years old and is the widow of the late Colonel Babcock, who was an offi-cer on General Grant's staff. He was also at one time the engineer officer in in this city.

in this city.

Mrs. Babcock was arrested yesterday afternoon by Policeman Gibson, owing to her queer conduct on the street. She spent the night in the care of the matrons at the House of Detention, and this morning was examined by Drs. Hickling and Marbury, who pronounced her insane. Mrs. Babcock believes that she is being persecuted by colored people. Her daughter died in Baltimore some years ago and she believes that colored people have resurrected her bones and are holding them for a ransom. She receives a pension of \$30 a month.

DANCED TO THE PATROL BOX. Edward Beach Startled the Neighbors and Was Arrested.

The residents in the vicinity of Seventh and K Streets southwest were startled about 5 o'clock this morning by a youth cs.

How have you been affected by tic manner. Pelicemen Dierkoph and er with questions, but were unable to secure intelligible replies in response. As a last resort they placed the youth under arrest. Try as they would, however, they were unable to restrain him. On the way to the patrol box the prisoner danced al the way. He was placed in the wage and placed in a strong room.

After an examination the physicians de-cided that he was insane. Later in the day the man had sufficiently respond-ed to treatment to be able to give his name as Edward Beach. He said that he lived at 1245 Four-and-a-Half Street southwest.

CONDITION OF THE BUTLERS. Little Hope for One of the Fever

Stricken Brothers. There was but little change today in Write names and addresses of 20 ds whom yet better would be benattack of malarial fever. His brother Charles, is on the road to recovery and will soon be able to leave the hospital. Both men were found in a shanty on the flats near the foot of Twenty-second Street Monday night suffering from fever and on the verge of starvation. Charles rapidly responded to treatment administered by the physicians at the Emergency Hospital and with good nourishing food is regaining his strength. Andrew's condition, however, was more serious and he has been delirious the greater part of the time since reaching the hospital.

MRS. FLORENCE BRICE DEAD. Passes Away, With Her Infant Son

at Cambridge, Mass. CAMBRIDGE, Mass., Sept. 4-Mrs. Florence Brice, wife of John Francis Brice, youngest son of the late Senator Brice of Chio, and her infant son, are dead at their home 14 Cragie Street. The death of Mrs. Brice is the end of a pretty romance begun when she, as Lucalle La Vergne, was a member of a theatrical company and he a Harvard law student. They were only married in April, 1990.

THE FINANCIAL OUTLOOK

Stock Market Interest Centring on the Chance of Tight Money.

Irregular Fluctuations in Prices During the Morning Hours-Apparently Less Liquidation Than Yesterday-No Important Declines.

NEW YORK, Sept. 4.-Notwithstanding he reactionary tendency shown in the narket yesterday, London again furnished a materially higher range of prices for American stocks, that quarter of the market there being described as active and Foreign houses continued buyers of th

ternational listed stocks in this market pon the opening of business. Little hange was noted in the several feature f the situation at large. Interest again entred largely upon the monetary situation as it seemed to be the general opin ion that the banks would be forced to cur tail advances to Wall Street borrowers, it order to fortify themselves against the with the movement of the crops.

with the movement of the crops. There did not appear to be such general liquidation at the opening as was noted in yesterday's dealings, but the trading still was characterized by irregular and uncertain movements. Active features were St. Paul, the Erie issues, Southern Railway, the Atchison, and Missouri Phecific, most of which held their own well compared with yesterday's final quotations. Some other stocks showed small advances and there were no important decitines.

The market was for the most part pro-fessional this morning, business being duli and fluctuations small and irregular. The opening was at a level which averaged a trife lower than the close of last night and at 11 o'clock little change had occurred, the fractional advances being slightly more numerous than the declines probably. There are two parties in the market and apparently they are evenly divided, but neither is anxious to test the truth of its arguments by important operations. The outlook is very uncertain and the market may be made to hinge on the developments in the monetary situs

One group of speculators considers the linancial outlook too threatening and believes that a decline of some importance is certain. Some beens even go so far as to assert that high prices have been reached for the present bull movement, and that a long decline is at hand. The hopeful people point to what they consider excellent general business conditions and that a long decline is at hand. The hopeful people point to what they considered. Brown, last year's captain, would be able to act as head coach this fall as expected. Brown has gone into business in the office of his uncle, J. Plerpont Morgan, of New York city, and Mr. Morgan as expected. Brown has gone into business conditions and control of the park system without contributing to its maintenance, and such other territory as may be deemed desirable by the park builts, however, are not a unit nexpecting an immediate upward movement. Some, while not looking for much decline during the period of outgoing money in New York city, and Mr. Morgan as expected to be seen before the end of the present year. Even the bulls, however, are not a unit nexpecting an immediate upward movement. Some, while not looking for much decline during the period of outgoing money in New York are of the coming as a partice, which will be gone for the period of the present year.

The news this morning was not important in any way. London was a purchaser of American stocks and is evidently in a hopeful frame of mind regarding them. Call money rates do not advance as they were expected to by many. Gold is reported at San Francisco from both the ryle period of control of the period of outgoing money in Nove York and country will be a distorated by the practice, which will believe that the day is not far distoration to the continuous distoration of the park system without contributing to the city which now enjoy the benefit of the park system without contributing to the city which now enjoy the benefit of the city which now enjoy the city which now enjoy the city which now enjoy the city One group of speculators considers the charge of public buildings and grounds is certain. Some bears even go so far as to assert that high prices have been reached for the present built movement, and that a long decline is at hand. The hopeful people point to what they consid-

imports at any time. A number of week-y, monthly, and yearly railway earnings' reports were received, all telling the same story of immense increases. The St. Paul gross earnings for the fourth week of August, show an increase of \$128,000.

The St. Paul earnings and the crop re orts received from its agents will do nuch to prevent the selling of the stock, en at its present level, and even when he general market is weak. St Paul is elling many points higher than it was year ago, but perhaps there is warrant or this and more in the fact that its nusiness is tremendously prosperous. There was little movement in the stock

Atchison, common, and Chicago, Great Vestern were the strong members of the granger group, both showing good ad-cances. Great Western went over 24, and Atchison half a point or more above the closing level of last night. The fine earning of the Atchison, and the prospect of a deal" for the Great Western at some lime in the near future are the cause for the buoyancy of these stocks.

The only boom of the morning was in olorado Fuel and Iron and Tennessee oal and Iron which advanced three oints and two points and a fraction res ectively before 11 o'clock. It was said a reason for the movement in the for er that Messrs. Gates and Lambert were urchasing all the stock offered aroun par. These gentlemen are supposed in have a very large block of Colorado Fu-and Iron though, perhaps not a control-ing interest. The earnings of both these

IT IS DANGEROUS. morbus often results fatally before can be procured or a physician sum-hamberlain's Colic, Cholera, and Diarompanies are expecially heavy at present account of the steel strike.

The report of the Republic Iron and Steel Company is expected in a few days. It is not generally known what the figures will show, but it may be stated on official authority that during the last two or three months the showing has been a fine one. The outlook, too, is excellent, contracts having been made for an immense amount of business that naturally would have gone to the trust.

The latest story regarding a soft coal combine is that Mr. Gary and others, act-ng for the Steel Trust, are buying up

Organizations Seeking to Improve American Municipalities.

Interest Manifested by Architects in the Proposed Exhibition at St. Louis of Plans for Public Parks. The Beautification of Washington.

The proposed exhibition at St. Louis of outdoor structures and city plans, sugitional League for Civic Improvement at Buffalo, was the tangible outgrowth of a concerted movement in many of the arge cities of this country, inaugurated by a body of far-sighted men who have the intellectual and aesthetic advance ment of American cities at heart.

An active agent in this campaign has een the Architectural League of America, in which organization there exists a committee on municipal improvement which stands ready to offer suggestion to any city or individual having in mind some new city feature. The report of this committee will short-

by be published in the league's year-book. The report was compiled by the chairman of the league's committee, H. K. Bush-Brown, of New York, a sculptor of wide reputation, two of whose equestrian statutes stand on the Gettysburg battle-field. Mr. Eush-Brown is at work just now on a design for a monument to Com-modore Stewart and Commodore Bainbridge, to be erected either in Trenton or in Newark, N. J. Mr. Bush-Brown's paper opens with a reference to the large possibilities of municipal improvement in the arrangement and grouping of public buildings, and the development of parks and waste places. Of the park system of Boston—the best in this country—the re-

port says in substance:
"A board was appointed which has ex pended over \$16,000,000 in creating and maintaining 2,354 acres of parks. Fifty per cent of this expense was borne by the city of Boston, and the remainder was apportioned among thirty-six surrounding cities and towns * * * according to the benefit derived by each. A practical sys-tem of co-operation was instituted and endorsed by legislation, and this co-operation has been further successfully caried out in Boston and its suburbs in an rrangement of sewerage and a system of

"A very similar but somewhat more difficult plan has been accomplished by the saving of the Palisades along the Hudson, for that required co-operative legislation in New York and New Jersey. The many difficulties were overcome, and although most of the land is in New Jersey, by far the greater proportion of cost has been borne by New York, because that city is

the greatest beneficiary."

The report autounces that another large nunicipal enterprise will be an improved water supply for New York city. Mr. Bush-Brown thinks that the work

Mr. Bush-Brown thinks that the work accomplished at Washington by the Convention of the American Institute of Architects, held there last year, is worthy of notice. Several men who had given some attention to the subject of municipal improvement were asked to address the convention on the needs of the city of Washington in the matter of grouping public buildings and monuments. The speakers were C. Howard Walker, of Boston; Bdgar V. Seeler, of Philadelphia; Prederic Law Olmsted, ir., of Boston; and H. R. Bush-Brown, of New York. Many valuable suggestions were made and a committee appointed to draft a bill creating a commission to devise a planfor a general artistic system of parks and parkings in Washington. The bill was passed and the commissioners were appointed. They are E. H. Burnham, of Chicago; Charles McKim, of New York, and F. L. Olmsted, Jr., of Boston. They are expected to report to Congress next winter.

Mr. Bush-Brown claims that many of

are expected to report to Congress next winter.

Mr. Bush-Brown claims that many of the improvements which are making Cleveland a model place were suggested at the first convention of the Achitectural League of America heid there in 1889.

The work of Chicago in establishing a park system is reviewed in the report, and some of that city's difficulties touched upon. Mr. Bush-Brown quotes the 1901 report of Chicago's special park commission as follows:

"Your special park commission recognizes the fact that a small park and playground system which would satisfy the needs of the whole city cannot be established from the city's resources now available. Fifteen of these parks, each containing one or two blocks in area, are absolutely necessary to felieve present conditions. By the time they are established more will be needed in regions which are growing rapidly in population. Your commissioners believe that the day is not far distant when city and country will be under one government. Until the way is payed for such union by constitutional

al thought. Constantine drew about him the great intellects of his age to accomplish the same for Constantinople. The impoverishment of Spain began when she drove the artistic and scientific Moors from the peninsula.

"During the Renaissance the free cities of Italy vied with each other in having their civic homes the most beautiful.

"The treasures of Italy bring to her annually an income of \$39,000,000 left there by foreigners attracted almost solely for the purpose of studying those art treasures. At 4 per cent that is the interest on a capital of \$2,269,000,000. To what extent would the expenditure of such a sum go to pay the cost of the cathedrals and other art treasures of Italy?

"Nature created the art treasures of Switzerland and her little pseudition of 2,000,000 have spent their energies on good roads, which make their mountains the summer homes of 2,300,000, who leave there annually \$30,000,000. Napoleon in his short years of success accumulated at Paris all the art treasures he could get possession of, and although some of them were returned in the peace settlements that followed Waterloo, enough remain in Parls to make that city the art centre of all civilization.

"Contributing to this issue was the reconstruction of the city plans by Baron Haussman, which makes modern Paris the most beautiful city in the world. Much of that street opening was made to pay for itself, the Government acquiring the land through which the avenues were built and reselling at advanced prices. Did it pay?

"It is estimated that there are 7,709 permanent residents from other countries, who must add \$8,000,000 per year. This is over \$5,000 per head. There are 22,000 permanent residents from other countries, who must add \$8,000,000. These estimates are conservative and are based on police registration tions. The income of Paris for the French people is \$160,000,000. The per cent on a capital of \$4,150,000,000. Landon's financial return for her reconstruction will doubtless be as great, and so, with supervision and foreign
